

Lavazza Espresso Point Matinee Program Bravo Coffee Group, Inc.

Lavazza Espresso Point Matinee is the answer to delicious and authentic Italian coffee! The Espresso Point system was designed to use cartridges filled with coffee, which delivers a consistent coffee every time. The machine requires no waterlines, and is able to be refilled easily.

The Espresso Point is convenient, clean and easy to use. This makes it extremely versatile for different uses. Some of our clients have used Espresso Point at home, at the office, even on a boat! The beauty of this program is that all the maintenance and cleaning is covered within the rental, so all you have to do is enjoy the delicious, authentic coffees!
